

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the [Return on Investment of Afterschool Programs in Pennsylvania](#) study determined that for every dollar invested in after-school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link to PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting students' needs since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in after-school programming. Include a brief description of the indicators used in the decision-making process.

A variety of methods are used to identify students for after school programs. Teachers provide lists of students who are not meeting standards and expectations for skills retention, skill acquisition, or growth in academic knowledge. Parents may also request for their child to participate. Students may voluntarily sign up for extra help as well.

Section: Narratives - After-school Program

After-school Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide after- school programming for their students.

- Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	284	<p>After school programming activities could include tutoring in core subject areas. Students stay after school to work with subject certified teachers in identified academic areas. After school programming may also include enrichment programs to provide opportunities to explore subjects in more depth and even family engagement nights for parents and children to attend together. Attendance at all events will be used to assess impact and the change in student performance on local and state assessments as well as changes in growth of skills as measured by growth assessments will be used to monitor impact.</p>

3. Describe the evidence-based resources that will be used to support student growth during the after- school program.

The following information was obtained from the PA Evidence Resource Center for school based afterschool programs: Afterschool programs can provide academic enrichment opportunities during non-school hours. Programs help students "meet state and local student standards in core academic subjects, such as reading and math; [offer] a broad array of enrichment activities that can complement their regular academic programs; and [offer] literacy and other educational services to the families of participating children" (U.S. Department of Education). "High quality afterschool programs generate positive outcomes for youth including improved academic performance, classroom behavior, and health and nutrition. Communities and businesses also benefit when youth have safe and productive ways to spend their time while their parents are at work" (Youth.gov).

4. Describe the staff that will provide the after- school program (i.e., Internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
12	Internal	Subject certified teachers of the four core subjects, math, science, history, and ELA will provide one to one tutoring services.
12	Internal	Subject certified teachers are preferred to provide enrichment activities in after school enrichment camps.
20	Internal	Staff to include teachers, aides, and administrative assistants will assist with family event nights by performing tasks such as registering guests, providing refreshments, leading workshops, distributing materials, etc.

- a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

- b. The LEA assures it understands it is responsible to ensure that all after-school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the after-school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Academic performance	Twice per quarter	Student academic performance will be analyzed every 4 weeks at midterm and quarterly grade reporting periods.
Attendance data	Once	15% of students will participate in after school enrichment programs.
Attendance data	Once	40% of total students will participate in a family event night activity.

6. How will the LEA engage families in the after-school program?

The LEA will offer family night events where students and parents/caregivers can attend together to engage in learning activities. At the events families will receive direct instruction and receive educational materials and resources to use at home.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget

\$8,797.00

Allocation

\$8,797.00

Budget Over(Under) Allocation

\$0.00

Budget Overview

Function	Object	Amount	Description
1400 - Other Instructional Programs – Elementary / Secondary	600 - Supplies	\$4,397.00	Supplies and materials to support after school program activities.
1400 - Other Instructional Programs – Elementary / Secondary	100 - Salaries	\$4,400.00	Pay for staff to attend events outside of the contracted work day.
