

VISION SCREENING SERVICES FOR CHILDREN

Somerset County Blind Association is thrilled to support children and their overall success by providing free vision screenings. Early detection and the proper treatment can have a tremendous impact on a child.

Vision screenings are provided by a professional screening technician at local daycare centers, Head Start programs, preschools and community events throughout Somerset County. The screenings include assessment of visual acuity, muscle balance, and for children ages 3 years and older, color deficiency using fun, game-centered activities.

If your organization is interested in scheduling vision screenings contact Josie Rigo by phone at **814-233-6414** or jrigo@pghvis.org

We use the state of the art PlusOptix Mobile Screener to ensure the highest quality vision test.

FREE EYEGASSES AND FITTING FOR CHILDREN

generously sponsored by the United Way of Laurel Highlands

Does your child need a pair of glasses? Somerset County Blind Association is here to help. As a result of the generosity of the United Way of Laurel Highlands, we are pleased to announce that a child with an eyeglass prescription can receive a free pair of glass with a proper fitting to ensure the correct alignment.

Please contact Megan Jacobs at **814.341-1837** or mjacobs@pghvis.org to schedule the appointment.
